This issues paper explores voluntary euthanasia. It is not intended to be exhaustive, however it aims to add to considerations of this very complex and sensitive topic through analysis of the domestic regulatory environment relating to both passive and active forms of voluntary euthanasia, and of relevant international laws by way of comparison with domestic regulation.

I am sure most here are familiar with the concept of shear flow as it related to horizontal shear stresses in beams. When designing a I-Shaped plate girder, most references, if not all, will design the weld between the flange and web using the shear formula  $VQ/I$  to determine the force on the welds.
